## WELCOME MESSAGE FROM ORGANISING CHAIRS

### Welcome to RAM 2024

Dear friends and colleagues,

On behalf of the organising committee, we warmly welcome you to join the **Regional Airway Meeting (RAM) 2024 on 27-29 September in Kuching, Sarawak, Malaysia** which is jointly organized by Persatuan Kakitangan Anestesiologi Hospital Umum Sarawak (PEKA-HUS), Malaysian Society of Neuroanaesthesiology and Neurocritical Care (MSNACC), Difficult Airway Society (DAS) from United Kingdom and Singapore Society of Anaesthesiologists (SSA), Malaysian Society of Anaesthesiologists (MSA) and College of Anaesthesiologists, Academy of Medicine of Malaysia (CoA, AMM).

We are very privileged to have prominent airway experts from around the globe to come together on this platform to create, to our knowledge, the very first three-day meeting dedicated to multidisciplinary airway management in this region. The conference will start off with pre-congress airway and simulation workshops and airway simulation followed by two days of extensive variety of lectures and expert panel discussions on the latest airway updates from different specialties. Apart from providing the leading stage for airway education, RAM also welcomes everyone to extend networks, build friendships and discuss current and future ideas on airway management.

We wish you a wonderful and rewarding meeting. Don't forget to go explore the sights, sounds and tastes of Kuching, a place known for its rich history, vibrant culture, and charming riverfront. Thank you for all your support and participation.

Sincerely,

**Dr Peter Tan**  
**Organising Chair**

*President, Malaysian Society of Neuroanaesthesiology & Neurocritical Care  
Consultant, Neuroanaesthesiologist  
Sarawak General Hospital, Malaysia*

**Dr Imelda Kong**  
**Organising Co-Chair**

*Anaesthesiologist, Sarawak General Hospital  
Fellow, Paediatric Anaesthesia*

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## WELCOME MESSAGE FROM THE SCIENTIFIC CHAIR

Dear friends and colleagues,

As President of the Difficult Airway Society UK, I am delighted that we are partnering with our colleagues at the Association of Staffs in Anaesthesiology of Sarawak General Hospital, Malaysian Society of Neuroanaesthesiology & Neurocritical Care and Singapore Society of Anaesthesiologists, and Social Interest Group in Difficult Airway Management, Malaysia, to organise RAM 2024. We are assembling an impressive lineup of speakers, presentations, and workshop faculty to deliver a world class airway conference.

We hope you can join us in 2024!

**Dr Imran Ahmad FRCA**

**Organising Chair**

*Scientific Chair*

*President, Difficult Airway Society (DAS), UK*

*Consultant Anaesthetist*

*Clinical Lead for Airway Management*

*Deputy Clinical Director for Theatres, Anaesthesia & Perioperative medicine (TAP)*

*Guy's & St Thomas' NHS Foundation Trust, London, UK*

*Honorary Senior Lecturer, King's College London, UK*

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## ORGANISING COMMITTEE

### Organising Chairpersons

---

#### **Dr Peter Tan**

**President**, Malaysian Society of Neuroanaesthesiology & Neurocritical Care  
Consultant Neuroanaesthesiologist, Sarawak General Hospital

#### **Dr Imelda Kong Wei**

**Anaesthesiologist**, Sarawak General Hospital  
Fellow, Paediatric Anaesthesia

### Scientific Chairperson

---

#### **Dr Imran Ahmad**

**President**, Difficult Airway Society (DAS), UK  
Consultant Anaesthetist  
Clinical Lead for Airway Management  
Deputy Clinical Director for Theatres, Anaesthesia & Perioperative medicine (TAP)  
Guy's & St Thomas' NHS Foundation Trust, London, UK  
Honorary Senior Lecturer, King's College London, UK

### Scientific Committee

---

#### **Dr Edwin Seet**

**President**, College of Anaesthesiologists, Singapore  
Senior Consultant Anaesthesiologist (Private Practice)  
Adjunct Associate Professor, Lee Kong Chian School of Medicine.  
Visiting Senior Consultant, National University Health System

#### **Dr Gunjeet Dua**

**Consultant Anaesthetist**, Guy's and St Thomas NHS Foundation Trust, London  
Training Programme Director for Education Delivery, London School of Anaesthetics  
Digital Content Lead, Royal College of Anaesthetists UK  
Education Lead, DAS-UK

#### **Associate Professor Dr Mohd Fahmi bin Lukman**

**Head and Consultant Anaesthesiologist**,  
Unit of Anaesthesiology and Critical Care,  
Faculty of Medicine and Defence Health,  
National Defence University of Malaysia

#### **Associate Professor Dr Sophia Chew**

**President**, Singapore Society of Anaesthesiologists  
Senior Consultant, Department of Anaesthesiology,  
Singapore General Hospital

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## WORKSHOPS

### Airway Mastery Workshop: Navigating the Essentials for Clinical Excellence

---

**Details**                      Date: 27 September 2024, Friday  
   Time: 0800 - 1700 (GMT+8)  
   Venue: Borneo Convention Centre, Kuching, Sarawak

---

**Coordinators**             Gunjeet Dua (United Kingdom)  
   Imelda Kong (Malaysia)

---

**Synopsis**                    Welcome to the 'Airway Mastery Workshop', a focused and practical training experience designed for doctors seeking to enhance their proficiency in airway management. This workshop aims to provide participants with a deep understanding of the latest techniques, technologies, guidelines and best practices in airway management, ensuring optimal patient outcomes in diverse clinical scenarios.

---

**Key Highlights**            **Expert-Led Sessions**  
Engage with world-renowned experts in the field of anaesthesiology, critical care, and emergency medicine. Our faculty comprises pioneers and thought leaders who will share their extensive knowledge and practical insights through interactive case discussion and hands-on demonstrations.

**Clinical Decision - Making Challenges**  
Navigate through realistic case scenarios designed to challenge your clinical decision-making skills. Gain insights into the complexities of airway management in various patient populations, including paediatrics, trauma, and the critically ill.

**Networking Opportunities**  
Connect with peers, mentors, and industry leaders during dedicated networking sessions. Share experiences, exchange ideas, and build a strong professional network that extends beyond the workshop.

**Certification and Continuing Education Credits**  
Participants will have the opportunity to earn certifications and continuing education credits, validating their commitment to excellence in airway management and contributing to their professional development.

---

**Target Audience**            Doctors from various disciplines involve in airway management e.g., anaesthesiology and intensive care, emergency medicine, internal medicine, paediatrics, and surgical based specialties.

## WORKSHOPS

### Airway Mastery Workshop: Navigating the Essentials for Clinical Excellence

---

#### Programme **1. Fiberoptic Intubation Skills and ORSIM (Bronchoscopy Simulator)**

Knowledge on the flexible bronchoscopes (sizes, appropriate tube sizes, basic physics, parts, movement, attachments, preparation, care, and sterilization); accessories including camera and monitors; Portable battery versus disposable version.

Information about indications, contraindications, advantages, and disadvantages of flexible bronchoscope

Latest updates and recommendations on flexible bronchoscopy

Preparation of the patient (from understanding the relevant anatomy to anaesthetizing the airway and choices of sedation)

Fiberoptic intubation via nasal/oral on mannequins

Experience flexible bronchoscopy simulator (ORSIM) in different airway scenarios

---

#### **2. Supraglottic Airway (SGA) and Intubation through SGA**

Knowledge on different types of SGA and their respective advantages and disadvantages; indications and contraindications of SGA

Hands on SGA insertion technique on mannequins and confirm SGA placement.

Discussion on use of SGA in special clinical situations: obese patients; controlled mechanical ventilation and risk of gastric aspiration.

Skill for endotracheal intubation with flexible scope via SGA.

---

#### **3. Videolaryngoscopes & Bonfils**

Overview and understanding the advantages and limitations of different types of videolaryngoscopes: channeled vs non-channeled.

Identify relevant anatomy via videolaryngoscopes.

Tips on troubleshooting problems encountered during videolaryngoscopy.

Understanding techniques and hands on with rigid fiberoptic intubating endoscope

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## WORKSHOPS

### Airway Mastery Workshop: Navigating the Essentials for Clinical Excellence

---

Programme **4. Emergency Front of Neck Access (FONA)**

Review of latest guidelines and recommendations regarding FONA

Overview of indications, preparation, and techniques of FONA

Skills to identify cricothyroid membrane and the relevant anatomy.

Hands on FONA techniques on mannequin

---

**5. Ultrasonography of Airway and Gastric**

Overview of the sonoanatomy of the upper airway

Applications of ultrasonography in airway management

*Assessment of the diameter of the upper subglottic airway and prediction of endotracheal tube size*

*Prediction of difficult laryngoscopy in obese patient*

*Placement of endotracheal intubation, esophageal intubation, and double lumen tube.*

*Detection of laryngeal mask airway (LMA) position*

*Elective transtracheal cannulation and emergency cricothyrotomy*

Use of gastric ultrasonography in assessing patient's aspiration risk

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## WORKSHOPS

### Airway Mastery Workshop: Navigating the Essentials for Clinical Excellence

---

#### Programme **6. Paediatrics Airway**

Understanding of normal paediatric airways and predict difficult airway.

Understanding the preparation and processes involved in performing an intubation.

Knowledge to identify common problems and solutions during paediatric intubation.

Knowledge and hands on LMA and videolaryngoscopy in paediatric mannequin

Basic principles and advanced techniques in simulated airway scenarios (1-2 scenarios)

Knowledge on fiberoptic intubation in paediatrics

---

#### **7. Case Discussion**

Discussion with the airway experts on real case scenarios from participants and facilitators

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## WORKSHOPS

### Simulation in Airway Management Workshop

---

**Details**                      Date: 27 September 2024, Friday  
   Time: 0800 – 1700 (GMT+8)  
   Venue: Level 3, Main Operating Theatre, Sarawak General Hospital

---

**Coordinators**            Lucas Law (Malaysia)

---

**Synopsis**                    Immerse yourself in an exciting learning experience at our Simulation in Airway Management Workshop. This workshop is designed to provide doctors with a unique opportunity to enhance their theoretical knowledge and practical skills through realistic, high-fidelity simulations. Participants will navigate complex airway scenarios in a controlled environment, bridging the gap between theory and hands-on application for improved clinical outcomes.

---

**Key Highlights**            **High-Fidelity Simulations**  
Engage in hands-on, high-fidelity simulations that replicate a range of challenging airway scenarios. These simulations, facilitated by advanced patient simulators, provide a realistic environment for participants to apply their knowledge and skills in a controlled setting.

**Critical Decision-Making Scenarios**  
Navigate through complex and critical decision-making scenarios, this workshop is designed to challenge participants' clinical reasoning and decision-making skills in a controlled and supportive environment.

**Safety Protocols and Complication Management**  
Learn and apply safety protocols in airway management simulations, including strategies for recognizing and managing complications. The workshop focuses on enhancing participants' ability to respond to unexpected challenges while prioritizing patient safety.

**Real-Time Feedback and Debriefing**  
Receive real-time feedback during simulations, allowing participants to adjust their approach and techniques as needed. Post-simulation debriefing sessions, facilitated by experienced instructors, provide a valuable opportunity for reflection, discussion, and continuous improvement.

---

**Target Audience**            Doctors from various disciplines involve in airway management e.g., anaesthesiology and intensive care, emergency medicine, internal medicine, paediatrics, and surgical based specialties.

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

### Confirmation of Receipt and Notification of Decision

- After submitting your abstract, you will receive an email confirmation that your abstract has been received.
- Please contact the Secretariat at [abstract@regionalairwaymeeting.com](mailto:abstract@regionalairwaymeeting.com) if you have submitted an abstract and did not receive an email acknowledgement.
- Notifications regarding the status of your abstract acceptance will be sent out from 3 May 2024.

### Presentation at the Congress

- Instructions for preparation of poster presentations will be sent together with acceptance notifications.
- The Organising Committee will endeavour to schedule abstracts according to authors' preferences but reserves the right to decide on the final form of presentation.
- For each abstract, at least one author is expected to attend the Conference. **Presenting authors must register for the Conference and pay the registration fee.**
- Abstract presenters need to register by the registration deadline for inclusion in the Conference programme and for presentation scheduling.

### Preparing Your Abstract for Submission

- The abstract should be as informative as possible and include the following details:
  - **Objectives:** background and specific aims of the study
  - **Methods:** description of methods used
  - **Results:** summary of results obtained
  - **Conclusions:** conclusions reached
- Abstracts must meet the following specifications:
  - **Abstract title** - Limited to 25 words
  - **Abstract text** - Limited to 300 words
  - **Abstract topic** - Abstracts topic must be chosen from a specific theme listed under the [abstract themes page](#)

# RAM 2024

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

- Please note that graphs, images or tables should **not be** included in your abstract.
- Use only standard abbreviations. Special or unusual abbreviations are not recommended. If otherwise necessary, the latter should be placed in parenthesis after the first appearance of the full word.
- All abstracts must be submitted and presented in clear English with accurate grammar and spelling of a quality suitable for publication. If you need editorial help, please arrange for the review of your abstract by a colleague who is a native English speaker, by a university scientific publications office (or other similar facility) or by a copy editor, prior to submission.
- The **submission** form at the link at the top of this page allows you to store your abstract in draft form to facilitate edits. Please note that abstracts must be **SUBMITTED** before the deadline to be sent for review for inclusion in the Main Programme.

### Declaration of Consent to Publication and Assignment of Copyright

Please take note of the following terms:

- Submitted abstract cannot be modified or corrected after final submission. Accepted abstracts will be published exactly as submitted. Please ensure all information is correct at the point of submission.
- Submission of the abstract constitutes you and your co-authors' consent to publication (e.g. Conference website, programmes, other promotions, etc.)
- The Abstract Submitter warrants and represents that he/she is the owner or has the rights of all the information and content ("Content") provided to RAM 2024 and Kenes MP Asia (Hereafter: "The Organisers"). The publication of the abstract does not infringe any third-party rights including, but not limited to, intellectual property rights.
- The Abstract Submitter grants the Organisers a royalty-free, perpetual, irrevocable non-exclusive license to use, reproduce, publish, translate, distribute, and display the Content.
- The Organisers reserve the right to remove any publication of an abstract which does not comply with the above.
- The Abstract Submitter is responsible for informing the other co-authors regarding the abstract status.

## REGIONAL AIRWAY MEETING

27-29 September 2024 (Friday - Sunday)  
Borneo Convention Centre Kuching Sarawak, Malaysia

## CONFERENCE VENUE

The **Borneo Convention Centre Kuching (BCCK)** is the first dedicated convention and exhibition center in Borneo, situated 8 km from Kuching's city center. It aims to host local and international events, exhibitions, and conventions in Sarawak. Strategically located between Kuching North and Kuching South, BCCK's award-winning architecture draws inspiration from Sarawak's lush rainforest, featuring the native 'ririk' leaf design. The center prioritizes accessibility with elevators, ramps, and facilities for people with mobility challenges. Equipped with a fully stocked first aid room and trained personnel, BCCK ensures safety and convenience for all attendees. Visit [www.bcck.com.my](http://www.bcck.com.my) for more information.
